getBoundBox method

want the
whole
Rectangle

pizza
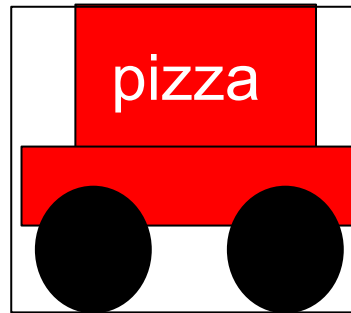

method header:
public Rectangle getBoundBox()

Lab

- Add a getBoundBox() method to your Car class
- Test it by making a simple game
    - ○ Make an ellipse object
    - ○ control the motion of the ellipse with the w-a-s-d keys
    - ○ Make a Car object that recycles forever
    - ○ When the ellipse collides with the Car, the Car should stop moving
